

# Profile

---

Frontend developer with a **5 year computer science degree** (from [Kuban State University](#)), more than **10 years of diverse experience** and deep understanding of modern frontend development process and its challenges. Experienced in prototyping and developing user interfaces, project and team management.

Able to quickly come up with solutions for challenges of varying degrees of difficulty. Obsessed with efficient development workflow, personal productivity and constant growth as a developer.

Speak English. Understand Portuguese (B1) and French (B1).

## Experience

Worked on a variety of different (by size and difficulty) projects: sites, **PWAs**, IPTV, IoT, interactive expo booths. Audited web-applications for performance issues.

Have experience working with **Svelte**, **React**, Vue and **Electron**. Used **Sass**, **Stylus** and PostCSS.

Very well familiar with modern frontend tooling ecosystem — **rollup**, webpack, **Grunt**, etc..

Love (and sometimes prefer) working with pure HTML/CSS/JavaScript stack without template engines, preprocessors and frameworks.

Passionate about web performance and accessibility. Like working with graphics (2D, SVG, 3D) and creating games.

# Past Employment

---

November 2016 — September 2019
