Past Employment

March 2014 - Currently

Freelance

Front-end Developer & Consultant

- Developed multiple web sites and applications.
- Worked as a volunteer for the FBK (Anti-Corruption Foundation). Had to work on (extremly) tight schedule and find solutions for complex, nontrivial problems.
- Built a Grunt-based template assembling tool for the proprietary landing page generator.
- Consulted clients on front-end performance and accessibility.

February 2008 - March 2014

Digital-agency Spider Group

Senior Front-end Developer

- Developed multiple web sites and applications. Including high traffic e-commerce site.
- Developed user interface for the e-commerce iOS app from scratch.
- Prototyped and developed UI for several expo booths.
- Was responsible for setting up front-end development workflow. Built several tools for automating development process.
- Consulted co-workers and clients on all matters concerning front-end development.
- Gained some experience in project management and native development for the iOS and Android.

Front-end Developer

- Developed multiple websites using several different content management systems (PHP, Python).
- Worked on a high traffic regional information portal.
- Participated in development of the interactive expo booths.
- Created numerous marketing e-mail templates.

December 2006 - August 2007

Kuban Internet Company

Front-end Developer

- First professional steps as a fulltime employed front-end developer.

Skype: buzz_Killingt0n

GitHub: https://github.com/uncleF

- Developed multiple websites using an in-house CMS (Perl).
- Briefly worked on two high traffic web projects — regional news portal and social networking site.

Before December 2006

Freelance

Front-end Developer

- String of awful web-sites built primarily for friends.
- First attempts to earn some money.
- ...mistakes were made.
